Your naturalist guide will give you an overview of your journey's schedule, activities, route, highlights, wildlife and vegetation to keep your eye out for, geographical and historical background, and other useful details.

Pahuachiro:

We head down into the Marañón River to a location known as Pahuachiro. This lovely spot is an ideal place to spend some time in search of birds and playful monkeys. As your naturalist guide spots various creatures for you, The landscape adorned by the usual colors of the sun's reflections is a great photo opportunity as you witness your first Amazon Rainforest Sunset.

Day 2

AM:

- Amazon Natural Park
- Shaman Ceremony

Night:

- Samiria River

Amazon Natural Park:

This very unique opportunity, you will get to the only Canopy Walkway in this area, an experience unequalled in the rainforest! At a height of over 25 meters (85 feet) and extending for 500 meters (one-third of a mile), the Canopy Walkway provides a view of the rainforest from the treetops, the best vantage point for observing Amazon wildlife and vegetation. The Canopy Walkway is accessible to all and requires no special skills or equipment. The suspended walkway is spread between 14 of the area's largest rainforest trees and is one of the longest canopy walkways in the world. You will enjoy "Terra Firma" forest, of a local ribereño is eye-opening to how far we have come in this day and age and a reflection of how simple yet rewarding life is for others.

You will have the opportunity to get to know Carola. She is a spiritual caretaker and healer to literally hundreds of jungle dwellers spread over many roadless miles. Her prestige and position are beyond reproach. The role of shaman is often misunderstood in the west, associated with black magic, and spells. While these things all have their place, the actual practitioners are as varied as in any profession. Carola is known as a "White" shaman, a healer and spiritual guide.

Samiria River:

At nightfall, your naturalist guides will invite you to board one of our skiffs. At night, the biodiversity of the jungle totally changes. You will search for alligators, bats and more nocturnal creatures that are so interesting and unique as daytime.

Night:
- *Nauta Caño*

Samiria River:

Our skiffs skim the Samiria River and its tributaries, where an abundance of wildlife hides in the deep rainforest, such as blue and yellow macaws, scarlet macaws, toucans, umbrella birds, monkeys, and river otters, capybaras and more. Our naturalists and his expert eye pinpoint all the biodiversity of this region. This is also a popular dolphin feeding spot so we won't be the only one enjoying the plethora of fish below.

Nauta Caño:

At night explore the Nauta Caño Creek, known for squirrel and silver back tamarillo monkeys, birds, dolphins, and even sloths! We will skim the riverbanks for small caimans and spiders, as well as insects of all colors, shapes and sizes.

Be sure to keep an attentive eye open for spotting surprises! Its almost unbelievable how with every step you find something along the way. Almost definitely Anaconda, Rainbow Boas, Tarantulas, Poison Frogs, and most recently porcupines have been spotted. This is one of the very few places in the Pacaya Samiria National Reserve Amazon Rainforest where you will spot the ever so elusive 2-toed sloth.

Confluence:

On board our skiffs, you will visit a community to meet local villagers who have called Amazonia their home for generations. You may step into a typical schoolhouse where the children will be very happy to have visitors, and then stop by an area to see the women of this community who have a most amazing arts & craft market.

Better known as the "Unión de los Ríos" we will toast and witness the distinguished colors of the 3 rivers. It is known that the Ucayali River, which in turn confluences with the Marañón River upstream of Iquitos, Peru, to form what countries other than Brazil consider to be the main stem of the Amazon River.

Notes

- ◎ **Nature walks & explorations:** Due to the conditions of the wet and humid rainforest, the Delfin outfits you with waterproof rubber boot rentals (included) for your comfort and convenience. Before each outing, the boots will be provided for you; after each outing, they will be returned to the staff for cleaning. We also provide the use of rain ponchos.
- ◎ **Kayaking:** Please check with your naturalist guide about the day's weather conditions for the use of kayaks. With the water level and weather forecast permitting, you are welcome to register, at your discretion, for the kayaking sessions. These sessions will be conducted in calm waters where you can paddle in a very relaxed manner. Our kayaks are ideal for 2 passengers each. The kayaking group will always be accompanied by an experienced naturalist guide for the entire duration.
- ◎ **Fishing:** Our fishing policy is in the form of catch and release.
- ◎ **Community visits:** It is possible to create very intimate experiences with the local native community people. For example, there are many young children and families in communities who have various needs in the absence of their own resources, so any help will be very useful. Kids love shirts (T-shirts), pencils, notebooks, and toys. Candies to distribute among them are also great sources of joy.

- ◎ **Weather:** The weather in Iquitos is warm and humid and the temperature varies between 33 °C (90 °F) and 21 °C (70 °F).
 - The rainy (high water) season is from November to May.
 - The dry (low water) season is from June to October.
 - Each season boasts dramatic difference in plants, animals, and weather.
- ◎ **Clothing:** light and fresh pieces, blouses, long-sleeved shirts, swimwear, shoes with soft rubber sole for the boat (rubber boots and rain ponchos are provided by us), cardigan or long-sleeved shirts, wind resistant jackets. The days are hot and humid while the night breeze is fresh.
