Notes:

Please note that all itineraries are subject to change due to weather and operational conditions. Any updates will be communicated onboard by our Cruise Director & naturalists, always with your comfort, safety, and the best possible experience in mind.

Inclusions on Delfin I:

Natural juices, soda, coffee, tea, water, domestic beer, house cocktails, Pisco cocktails & sours, house wines 24/7.

Day 1

PM:

- Arrive to the Amazon city of Iquitos.
- Embarkation
- Orientation
- Marañón River

Arrive to the Amazon city of Iquitos:

Our crew will be expecting your arrival at the airport, then transfer all together in our comfortable private vehicle. We will start you off with a lunchbox as we begin the journey to Nauta.

Arrive to Nauta port:

Nauta is a small riverside town on the banks of the Marañón River and was the first city founded in the department of Loreto. Once we reach Nauta, you will enjoy a VIP greeting at our private port along the shores of the Marañón River where the vessel awaits you.

Embarkation:

Aboard Delfin, you will be served by our qualified staff who will introduce you to your exquisite and cozy suite, specially equipped with all the amenities for the experienced traveler as yourself. Orthopedic beds, pure cotton sheets, pillows of 100% pure natural latex, cotton bathrobes, air conditioning, and private bathroom with Spanish style hot water showers are all framed with a spacious private terrace we are sure you will enjoy to the fullest.

Orientation:

While the Delfin begins its initial navigation, you will enjoy the most fantastic panoramic views from the elegantly outfitted observation area located on our third deck. Your naturalist guide will give you an overview of your journey's schedule, activities, route, highlights, wildlife and vegetation to keep your eye out for, geographical and historical background, and other useful details.

Marañón River:

We head down into the Marañón River, a lovely spot is an ideal place to spend some time in search of birds and playful monkeys. As your naturalist guide spots various creatures for you, the landscape adorned by the usual colors of the sun's reflections is a great photo opportunity as you witness your first Amazon Rainforest Sunset.

Day 2

AM:

- *Las Palmas*
- *Amazon Natural Park*
- *Shaman Ceremony*

PM:

- *Yanayacu Pucate*

Las Palmas:

On your first morning with us, we recommend getting up early to appreciate one of the most important zones of the Pacaya Samiria National Reserve. Never does nature seem more bountiful than in the tropics, and early rising is always rewarding since wildlife is most abundant and active with the rising of the sun. The early morning hours are the best time of day to watch birds, observe their special displays and listen to their songs. We will jump on the skiffs and head to this area with large trees and old palm trees as well, these components favor the presence of several parrot species. This particular spot also has a great number of other birds of different species. We will look for the famous hoatzins nesting a few feet above water, and perhaps a sloth or two of the three toed kind.

Amazon Natural Park:

You will have the opportunity to get to know Carola. She is a spiritual caretaker and healer to literally hundreds of jungle dwellers spread over many roadless miles. Her prestige and position are beyond reproach. The role of shaman is often misunderstood in the west, associated with black magic, and spells. While these things all have their place, the actual practitioners are as varied as in any profession. Carola is known as a "White" shaman, a healer and spiritual guide.

Yanayacu:

You will start cruising through the Yanayacu and Pucate Rivers, peeking into different creeks and lagoons. This is one of the best preserved and protected zones of the Pacaya Samiria National Reserve. Your guide will use his expert eye to pinpoint all the biodiversity of this region. Because of the low level of the river in the low water season, we will visit a natural beach that only appears at this time of year.

Engage in kayaking and swimming near these enchanting dolphins for an unforgettable experience.

Pucate:

At nightfall, your naturalist guides will invite you to board the skiffs. At night, the Amazon wildlife totally changes. You will search for alligators, bats and more nocturnal creatures that are so interesting and unique.

Day 3

AM:

- *Pucate*

PM:

- *Fundo Casual*

Pucate:

We will continue exploring this area of the Pacaya Samiria National Reserve. If you want to interact directly with the waters of the Amazon, jump into the kayaks. You will get a closer look at the nature that surrounds you, including the magical pink river dolphin.

On your visit to the community we will be welcomed by smiling faces and friendly people. Around the community, people who are happy to show you the process of peeling and grating cassava, while another may invite you in for a look at the tools he uses to process the rice (grown locally). A day in the life of a local ribereño is eye-opening to how far we have come in this day and age and a reflection of how simple yet rewarding life is for others.

Fundo Casual:

The walk at Fundo Casual jungle trail will take you deep into the rainforest on terra firme (non-flooded forest) where your guide will point out the dynamic creatures and vegetation of the Amazon. Be sure to keep an attentive eye open for spotting surprises! Its almost unbelievable how with every step you find something along the way. Almost definitely Anaconda, Rainbow Boas, Tarantulas, Poison Frogs, and most recently porcupines have been spotted. This is one of the very few places in the Pacaya Samiria National Reserve Amazon Rainforest where you will spot the ever so elusive 2-toed sloth.

Day 4

AM:

- *Yarapa River*

PM:

- *Confluence*

Yarapa River:

Along the Yarapa River, you will get to explore this tributary intimately. Listen closely for the sounds from within the mysterious jungle. We travel down river to this wide creek that leads to an attractive hidden lagoon. As we absorb the beauty of the landscape, we will have the chance to reflect on the wildlife. Hawks, terns, herons and monkeys which are part of our everyday excursions are readily close by; in this area we will notice many more inhabitants of the Amazon, the *riverños*. People being an important part of this complex bionetwork only reinforce the fact that we are part of their lives and how our presence here and now could make a difference to the future of this magical land of the Incas. Look out for specific types of Monkeys like the pygmy marmoset, squirrel monkey, and our first Monk Saki. This medium-sized monkey with the thick fur and bushy tail looks more like he is dressed for the Arctic than the Amazon.

Confluence:

Better known as the "Unión de los Ríos" we will toast and witness the distinguished colors of the 3 rivers. It is known that the Ucayali River, which in turn confluent with the Marañón River upstream of Iquitos, Peru, to form what countries other than Brazil consider to be the main stem of the Amazon River. Great photo opportunity as you witness your first Amazon Rainforest Sunset.

Day 5

AM:

- *Disembarkation*
- *Tropical Fish Aquarium*
- *Meliponas Bees*
- *Airport departure*

Disembarkation:

With heavy hearts, the staff will wish you farewell as you begin your departure. At the port of Nauta, our ground crew will be waiting to take you by our private vehicle back to the city of Iquitos, about 95 kilometers journey by paved road.

Tropical Fish Aquarium

Before your return flight, we will make a short but fascinating stop at the Tropical Fish Aquarium in Iquitos, home to a wide variety of species native to the Amazon rivers. You'll get to see exotic creatures such as the giant arapaima (paiche), freshwater stingrays, and fish in extraordinary shapes and colors.

This final visit offers a wonderful way to conclude your Amazon experience, with one last glimpse into the region's incredible aquatic biodiversity.

Meliponas Bees:

Before going to the airport, we will have an interactive activity that will allow us to learn more about melipona bees and their importance in the Amazon ecosystem.

Airport departure:

Our staff will be on hand to help you with your luggage and check in at Crnl. FAP Francisco Secada Vignetta International Airport in Iquitos. The return flight will take you directly to the city of Lima, the capital of Peru. At the security gate, your guide and Delfin crew will say goodbye. We truly hope that you enjoyed your stay and Amazon travel experience with us!

BONUS TRACK

Once you are on board, your naturalist will inform you of all the additional activities we will offer during your journey. Bird watching at break of dawn, slide show of endemic wildlife in the afternoon, discovering fruits from the rain forest you probably have never seen before, what about cooking a local dish? Or learning how to make a Pisco Sour! We encourage you to join us on every session to learn, feel & taste a little bit more of the Amazon.

Notes

- ◎ **Nature walks & explorations:** Due to the conditions of the wet and humid rainforest, the Delfin outfits you with waterproof rubber boot rentals (included) for your comfort and convenience. Before each outing, the boots will be provided for you; after each outing, they will be returned to the staff for cleaning. We also provide the use of rain ponchos.
- ◎ **Kayaking:** Please check with your naturalist guide about the day's weather conditions for the use of kayaks. With the water level and weather forecast permitting, you are welcome to register, at your discretion, for the kayaking sessions. These sessions will be conducted in calm waters where you can paddle in a very relaxed manner. Our kayaks are ideal for 2 passengers each. The kayaking group will always be accompanied by an experienced naturalist guide for the entire duration.
- ◎ **Fishing:** Our fishing policy is in the form of catch and release.
- ◎ **Community visits:** It is possible to create very intimate experiences with the local native community people. For example, there are many young children and families in communities who have various needs in the absence of their own resources, so any help will be very useful. Kids love shirts (T-shirts), pencils, notebooks, and toys. Candies to distribute among them are also great sources of joy.

Recommendations

- ◎ **Itinerary:** The itineraries are subject to change due to weather conditions at certain times of the year. The water levels of the rivers also vary from time to time, as well as the hours of sailing. Excursions may be modified at the discretion of the Delfin crew.
- ◎ **Weather:** The weather in Iquitos is warm and humid and the temperature varies between 33 °C (90 °F) and 21 °C (70 °F).
 - The rainy (high water) season is from November to May.
 - The dry (low water) season is from June to October.
 - Each season boasts dramatic difference in plants, animals, and weather.
- ◎ **Clothing:** light and fresh pieces, blouses, long-sleeved shirts, swimwear, shoes with soft rubber sole for the boat (rubber boots and rain ponchos are provided by us), cardigan or long-sleeved shirts, wind resistant jackets. The days are hot and humid while the night breeze is fresh.
- ◎ **Insects & Mosquitoes:** We recommend taking Vitamin B or B-15 a few days before arrival to the jungle. These vitamins are the best natural repellent against insect bites. As well, do not forget to bring conventional repellent and cream for bites.
- ◎ **Other items:** We suggest bringing sunscreen, a hat, sunglasses, binoculars (very important for enjoying the fauna and flora. Preferably 1 per person), camera, and extra batteries.
- ◎ **Connectivity:** There is no WiFi Internet or phone signal coverage on our vessels.
- ◎ **Tips:** Tips for both the crew and the guides are not included and are expected, as is customary on cruises around the world. The amounts are distributed equally between your entire vessel's crew, and we hope their service is valuable and insightful to your experience aboard Delfin. From past experience an average of US\$ 180.00 per passenger is suggested, and envelopes will be provided in your room.
- ◎ We recommend bringing the equivalent of USD\$100.00 changed into Soles (approximately 300 soles) in small denominations. Of these, we suggest reserving 200 Soles or more for purchasing outside the walk at Fundo Casual, where they sell very beautiful wooden boards.
