Guests should be in good physical health in order to be able to make the most of this experience. Visiting the area involves the use of small, motorized skiffs and at it will include some possible wet landings. The daily excursions may include walking on irregular terrain and getting in and out of the skiffs occasionally requires some physical effort. Walking excursions may last up to two hours. Malaria pills and yellow fever vaccinations are not required for travelers coming into the region, follow your doctor's advice bearing in mind the strong side effects of malaria pills.

In case travelers has a medical emergency, Delfin Amazon Cruises will assist with their disembarkation and services in Iquitos. The trip is not refundable, that is why we strongly recommend to purchase a comprehensive travel insurance.

Most travel insurance policies will cover incidents of loss of theft.
